Fig. 4: Examples of Fund Searches Issued in May 2013

Investor	Investor Type	Investor Location	Next 12 Months Plan
<a href="#">Finnish State Pension Fund</a>	Public Pension Fund	Europe	The €15.5bn public pension fund anticipates committing €120mn to the private equity asset class over the next 12 months. It will consider a range of fund types, but is planning to focus mainly on small to mid-market buyout funds with a global focus. The pension plan will consider working with GPs it does not have an existing relationship with, as well as re-upping with some existing managers in its portfolio.
<a href="#">Alfred I. duPont Testamentary Trust</a>	Foundation	North America	The North America-based foundation is looking to commit between \$75mn and \$150mn across five to 15 private equity funds over the coming year. It will consider working with both existing managers in its portfolio, as well as forming new GPs relationships. The foundation is targeting a variety of fund types on a global scale, although it currently views venture capital and growth funds as presenting the best opportunity.
<a href="#">CIBC Merchant Banking</a>	Investment Bank	North America	CIBC Merchant Bank is looking to make between one and three new private equity fund commitments over the next 12 months, committing between C\$5mn and C\$30mn in total to the asset class. The investment bank expects to target buyout funds focusing on opportunities in Canada, though it is open to investing outside of this region in funds targeting the financial services industry.
