

Private Real Estate Fundraising Declines Again in Q2 2012 \$7.5bn raised by funds holding a final close, a decline on Q1 2012

Twenty-seven closed-end private real estate funds reached a final close in Q1 2012, having raised an aggregate \$7.5bn. A further three real estate funds of funds closed in the quarter, having raised an aggregate \$1.3bn. Although Preqin anticipates the latest quarterly figures improving slightly (10-20%) as more information becomes available, it is clear that fundraising in Q2 2012 has been slower than the levels seen each quarter in 2011 and in the first quarter of 2012.

Other Key Facts:

- **Fundraising by Region** – Funds with a primary focus on North America raised the most capital; 17 such funds received aggregate commitments of \$4.7bn. Five Europe-focused funds raised \$1.8bn, while four Asia-focused funds raised \$0.9bn.
- **Notable Funds Closing** – Niam raised €719mn for Niam Nordic V, while Partners Group raised \$800mn for Partners Group Global Real Estate 2011 and Colony Capital raised \$780mn for Colony Distressed Credit Fund II.
- **Interim Closes** – In addition to funds holding final closes, 32 held interim closes in the quarter, raising \$7.1bn towards their fundraising targets.
- **Time Taken to Close Funds** - Funds closed in H1 2012 spent an average of 19.0 months in market, an increase from the average of 17.0 months taken to fundraise by funds closed in 2011 and a significant increase on the average of 8.8 months that funds closed in 2007 spent in market.
- **Funds in Market:** There are currently 453 funds in market targeting aggregate commitments of \$159bn. The aggregate target of funds on the road fell by \$7bn during Q2 2012, but the fundraising market remains extremely competitive.

Comment:

“Q2 2012 saw capital raised for private equity real estate funds fall for a second successive quarter. The \$7.5bn total was a decline on the \$10.8bn raised in Q1 2012 and the \$15.9bn raised in the final quarter of 2011. It remains extremely tough for fund managers to hold final closes as a result of the level of competition and the significant number of institutional investors which are not actively investing in new private real estate funds.

With 453 funds now on the road, it is harder than ever for managers seeking capital for real estate funds to stand out from the crowd. Some managers have had considerable success in the quarter, but for many others fundraising has remained challenging, and looks set to continue to be tough for the second half of 2012.”
