Benchmarking Tools

Our benchmarking tools allow you to compare the returns from your private equity portfolio with those seen across the industry. The market benchmarks platform on **Preqin Investor Network** allows you to hone in on the performance metrics of the markets within private equity that are of most interest to you.

See how your portfolio compares to the overall private equity universe and its component fund types. Access rolling horizon IRRs on a one-, three- and five-year basis in order to gain an insight into how your portfolio is performing against the private equity industry as a whole.

With effective capital allocation so vital in a challenging investment environment, our **PrEQIn Index** helps investors with the important decisions. See which private equity fund strategies are performing the best and compare the returns of private equity against other asset classes.

Our **Market Benchmarks** engine – powered by our premium **Performance Analyst** product – can be tailored to see how a particular sector of the private equity industry is performing. Are funds within your portfolio performing above or below the median performance line? Are you accessing the top quartile of managers? Find out using Market Benchmarks on **Preqin Investor Network**.

Market Benchmarks

Compare average benchmark performance by vintage year for different types and locations of fund.

Vintage: All

Fund Type: All

Geographic Focus: All

Benchmark: Median

As of date: Most Up-to-Date
